SKILLS

- HTML5
- CSS3
- JavaScript
- React
- Vue.js
- Node.js
- Express.js
- MongoDB
- Git
- GitHub
- TypeScript
- REST API
- Three.js
- Prisma
- PostgreSQL
- Stripe

LANGUAGES

- French — Native
- English — Professional

INTERESTS

- Gaming
- Tech
- Reading
- Music
- Astronomy

PROFILE

Passionate web developer with expertise in JavaScript, React and Node.js. I build complete web applications, from the interface to online payments, such as LocAntilles, live at locantilles.fr. Always looking for new challenges and eager to learn the latest web technologies.

PROFESSIONAL EXPERIENCE

2023 - Present

Full-Stack Developer

Personal Projects

- LocAntilles: activity booking platform in Martinique, in production (Node.js/Express API, Stripe payments, provider dashboard)
- Bomb Island: 3D game playable in the browser, built with Three.js
- Analytics Hub: multi-project audience analytics tool (Node.js, SQLite, PWA)

2022 - 2023

Front-End Developer

Personal Projects

- Building responsive websites with HTML/CSS/JavaScript
- Using modern frameworks (React, Vue.js)
- Version control with Git and GitHub

EDUCATION

2022 - 2023

Web Developer

OpenClassrooms

Intensive full-stack web development program covering HTML, CSS, JavaScript, React, Node.js and MongoDB.

MAIN PROJECTS

LocAntilles

JavaScript • Node.js • Express • Prisma • PostgreSQL • Stripe

Booking platform for activities and stays in Martinique: catalogue, online booking and payment, dashboard for local providers and a secured REST API (JWT).

Bomb Island

JavaScript • Three.js • WebGL

3D game playable right in the browser: real-time rendering, particle effects and a custom game interface.

Kasa Project

React • JavaScript • Responsive Design

Rental application built entirely with React, featuring navigation and dynamic display of listings.

Sophie Bluel - Architect Portfolio

JavaScript • DOM • API REST

Interactive portfolio website with user authentication, DOM manipulation and API integration for dynamic project management.
